Fee Schedule

Aristo Capital AG AG — Platform Commissions and Charges

Effective date: 15 January 2026 · Switzerland

1. Purpose and Scope

This Fee Schedule sets out, in a complete and transparent manner, all commissions and charges applied by Aristo Capital AG AG (the "Company") to services provided through its platform.

The fees listed below are the ONLY platform fees charged to clients. No hidden charges, subscription fees, account maintenance fees, or inactivity fees apply.

Every fee is calculated and withheld automatically at the moment of the relevant operation, and the exact withheld amount is always displayed to the client and permanently recorded in the client's transaction history.

2. Success Fee — Cross-Exchange Arbitrage Sessions (10%)

A success fee of 10% (ten percent) of the gross profit is withheld from each trade executed within a cross-exchange arbitrage session.

The fee applies to PROFIT ONLY — never to the invested capital. Only the net profit (after the fee) is credited to the client's arbitrage balance.

The gross profit, the exact fee amount in EUR, and the net credited amount are displayed on the result screen of every arbitrage trade and in the session report.

3. Success Fee — AI Trading (10%)

A success fee of 10% (ten percent) of the gross profit is withheld when an AI (algorithmic) trading position is closed with a positive result.

No fee is charged on break-even or losing positions: the fee applies to PROFIT ONLY, never to the invested capital.

Upon closure, the client is credited with the invested amount plus the net profit (after the fee). The gross profit and the exact fee amount are shown in the trade history on the trading page.

4. Asset Sale Fee (2%)

A fee of 2% (two percent) of the gross sale proceeds is withheld on every sale of assets (cryptocurrencies, stocks, commodities) executed on the platform.

Only the net amount (proceeds minus the 2% fee) is credited to the client's EUR balance.

The exact fee amount and the net amount to be credited are displayed BEFORE the client confirms the sale, and are permanently recorded in the transaction history.

5. Fee-Free Operations

The following operations are NOT subject to any platform fee: purchases of assets, deposits of funds, withdrawals of funds, and internal transfers.

Third-party costs (e.g. blockchain network fees or correspondent bank charges) are outside the Company's control and are not platform fees; where they apply, they are charged by the respective third party.

6. Collection and Transparency

All fees are withheld automatically at the moment of the relevant operation. The client never receives a separate invoice and never needs to make a separate payment.

The exact amount of every withheld fee is displayed to the client at the time of the operation and remains permanently visible in the client's transaction and trade history.

Questions regarding this Fee Schedule may be addressed to the Company at official@aristocapital.org.

7. Amendments

The Company may amend this Fee Schedule. The version published on the platform is the version in force; material changes are communicated to clients in advance through the platform.

This document is provided for information purposes only. It is not a certificate of authenticity and bears no official seal, signature or stamp. The current version and the regulatory status of the Company can be verified in the public FINMA register and on the official company website.
